

Becoming  Education

“

**There are no shortcuts to success,
but there are some secrets.**

Bear Grylls
BecomingX Co-founder

Imagine

Imagine a world where everyone can realise their potential. Where kids can learn from the world's most inspiring people and realise that they too can achieve extraordinary things. That they can make a difference. Where young people dare to dream of who they could become, and they know what it will take to get there.

Imagine a future where educators have access to world-class resources at the press of a button. Giving them the time and space to do what they do best. To teach. And to create brighter futures for the next generation. Where school leaders have the tools needed to deliver. Where educational institutions and staff are supported by a company that shares their goals and stands behind them. Willing them to succeed.

Imagine no more.

You will become:

- Aware**
You will learn what it really takes to succeed with insights from the world's most inspiring people
- Inspired**
You will realise that you have the potential to achieve truly extraordinary things
- Driven**
You will be ready to start going after your dreams every day

Realise

BecomingX Education is a digital solution to help schools deliver world-class personal development programmes. What we focus on goes by many names - 'PSHE', 'character education', 'employability skills'... Call it what you may, BecomingX Education helps educators to build the skills, knowledge, attitudes and relationships that students need to succeed.

Featuring a library of ready to deliver content, inspiring stories, tools for leaders, student surveying capabilities, access to curated virtual and international student experiences, you will see how BecomingX Education helps everyone to realise their potential.

Core elements

Library

Lessons, assemblies, discussions, activities and clips to help teach the personal attributes needed to succeed.

Cinema

Short films with the world's most inspiring and iconic people, sharing their insights on what it takes to succeed.

Tools

Practical resources and guidance to help deliver a world-class personal development programme.

Surveys

A digital surveying capability to understand how your students see their personal development progress.

Experiences

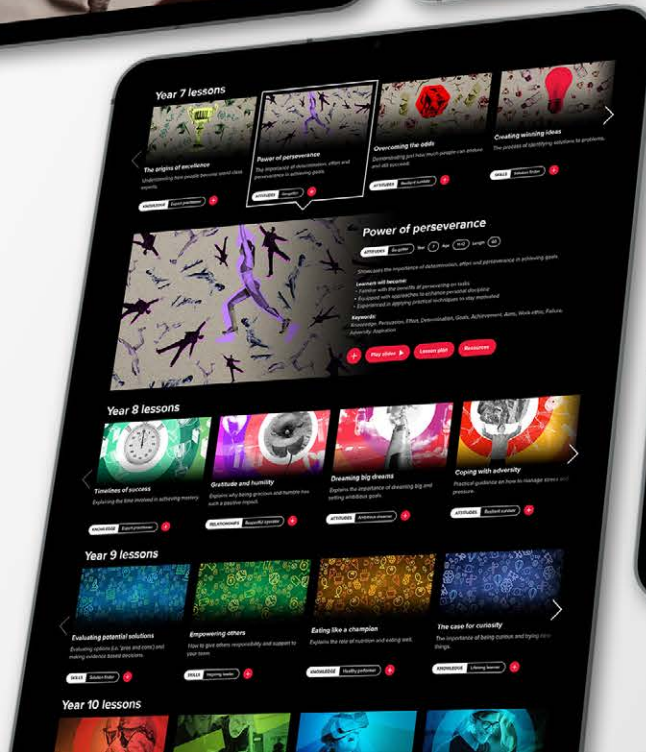

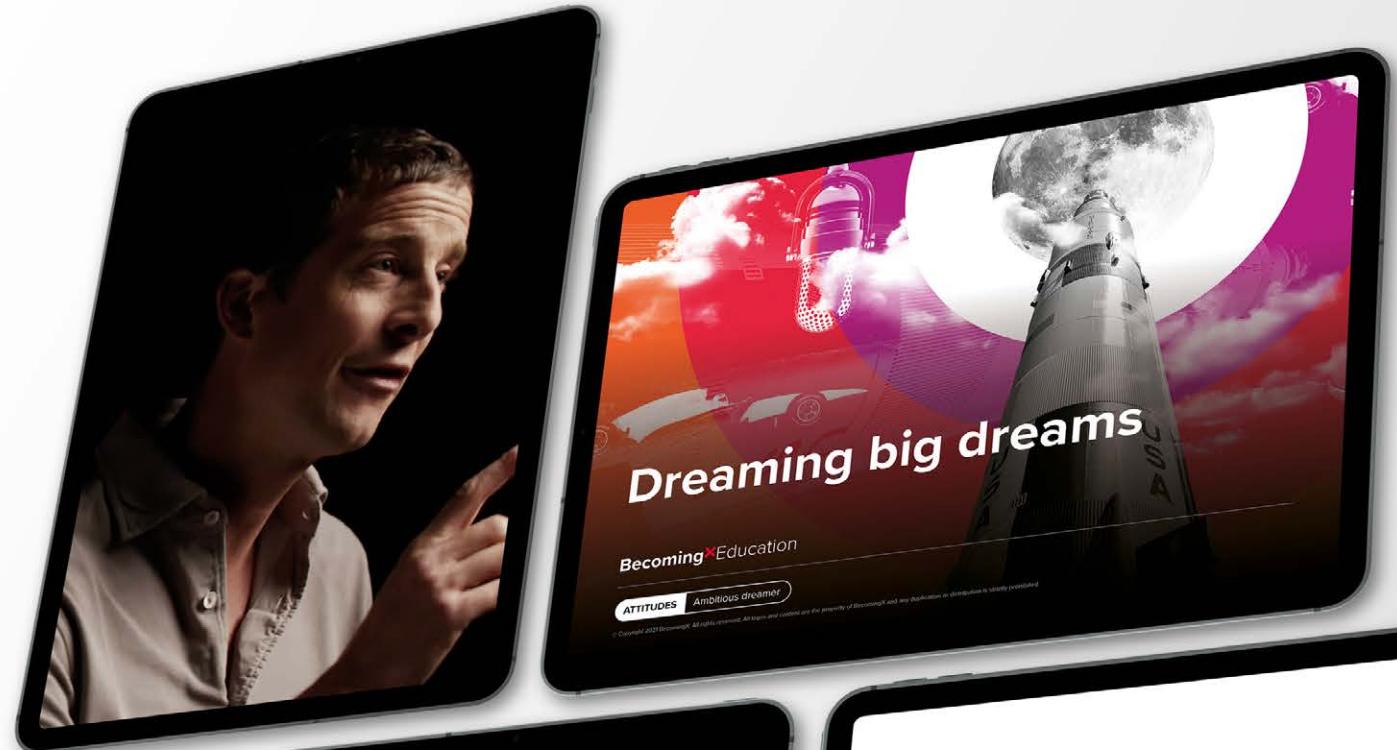

Curated virtual and international experiences to provide opportunities to learn in practice.

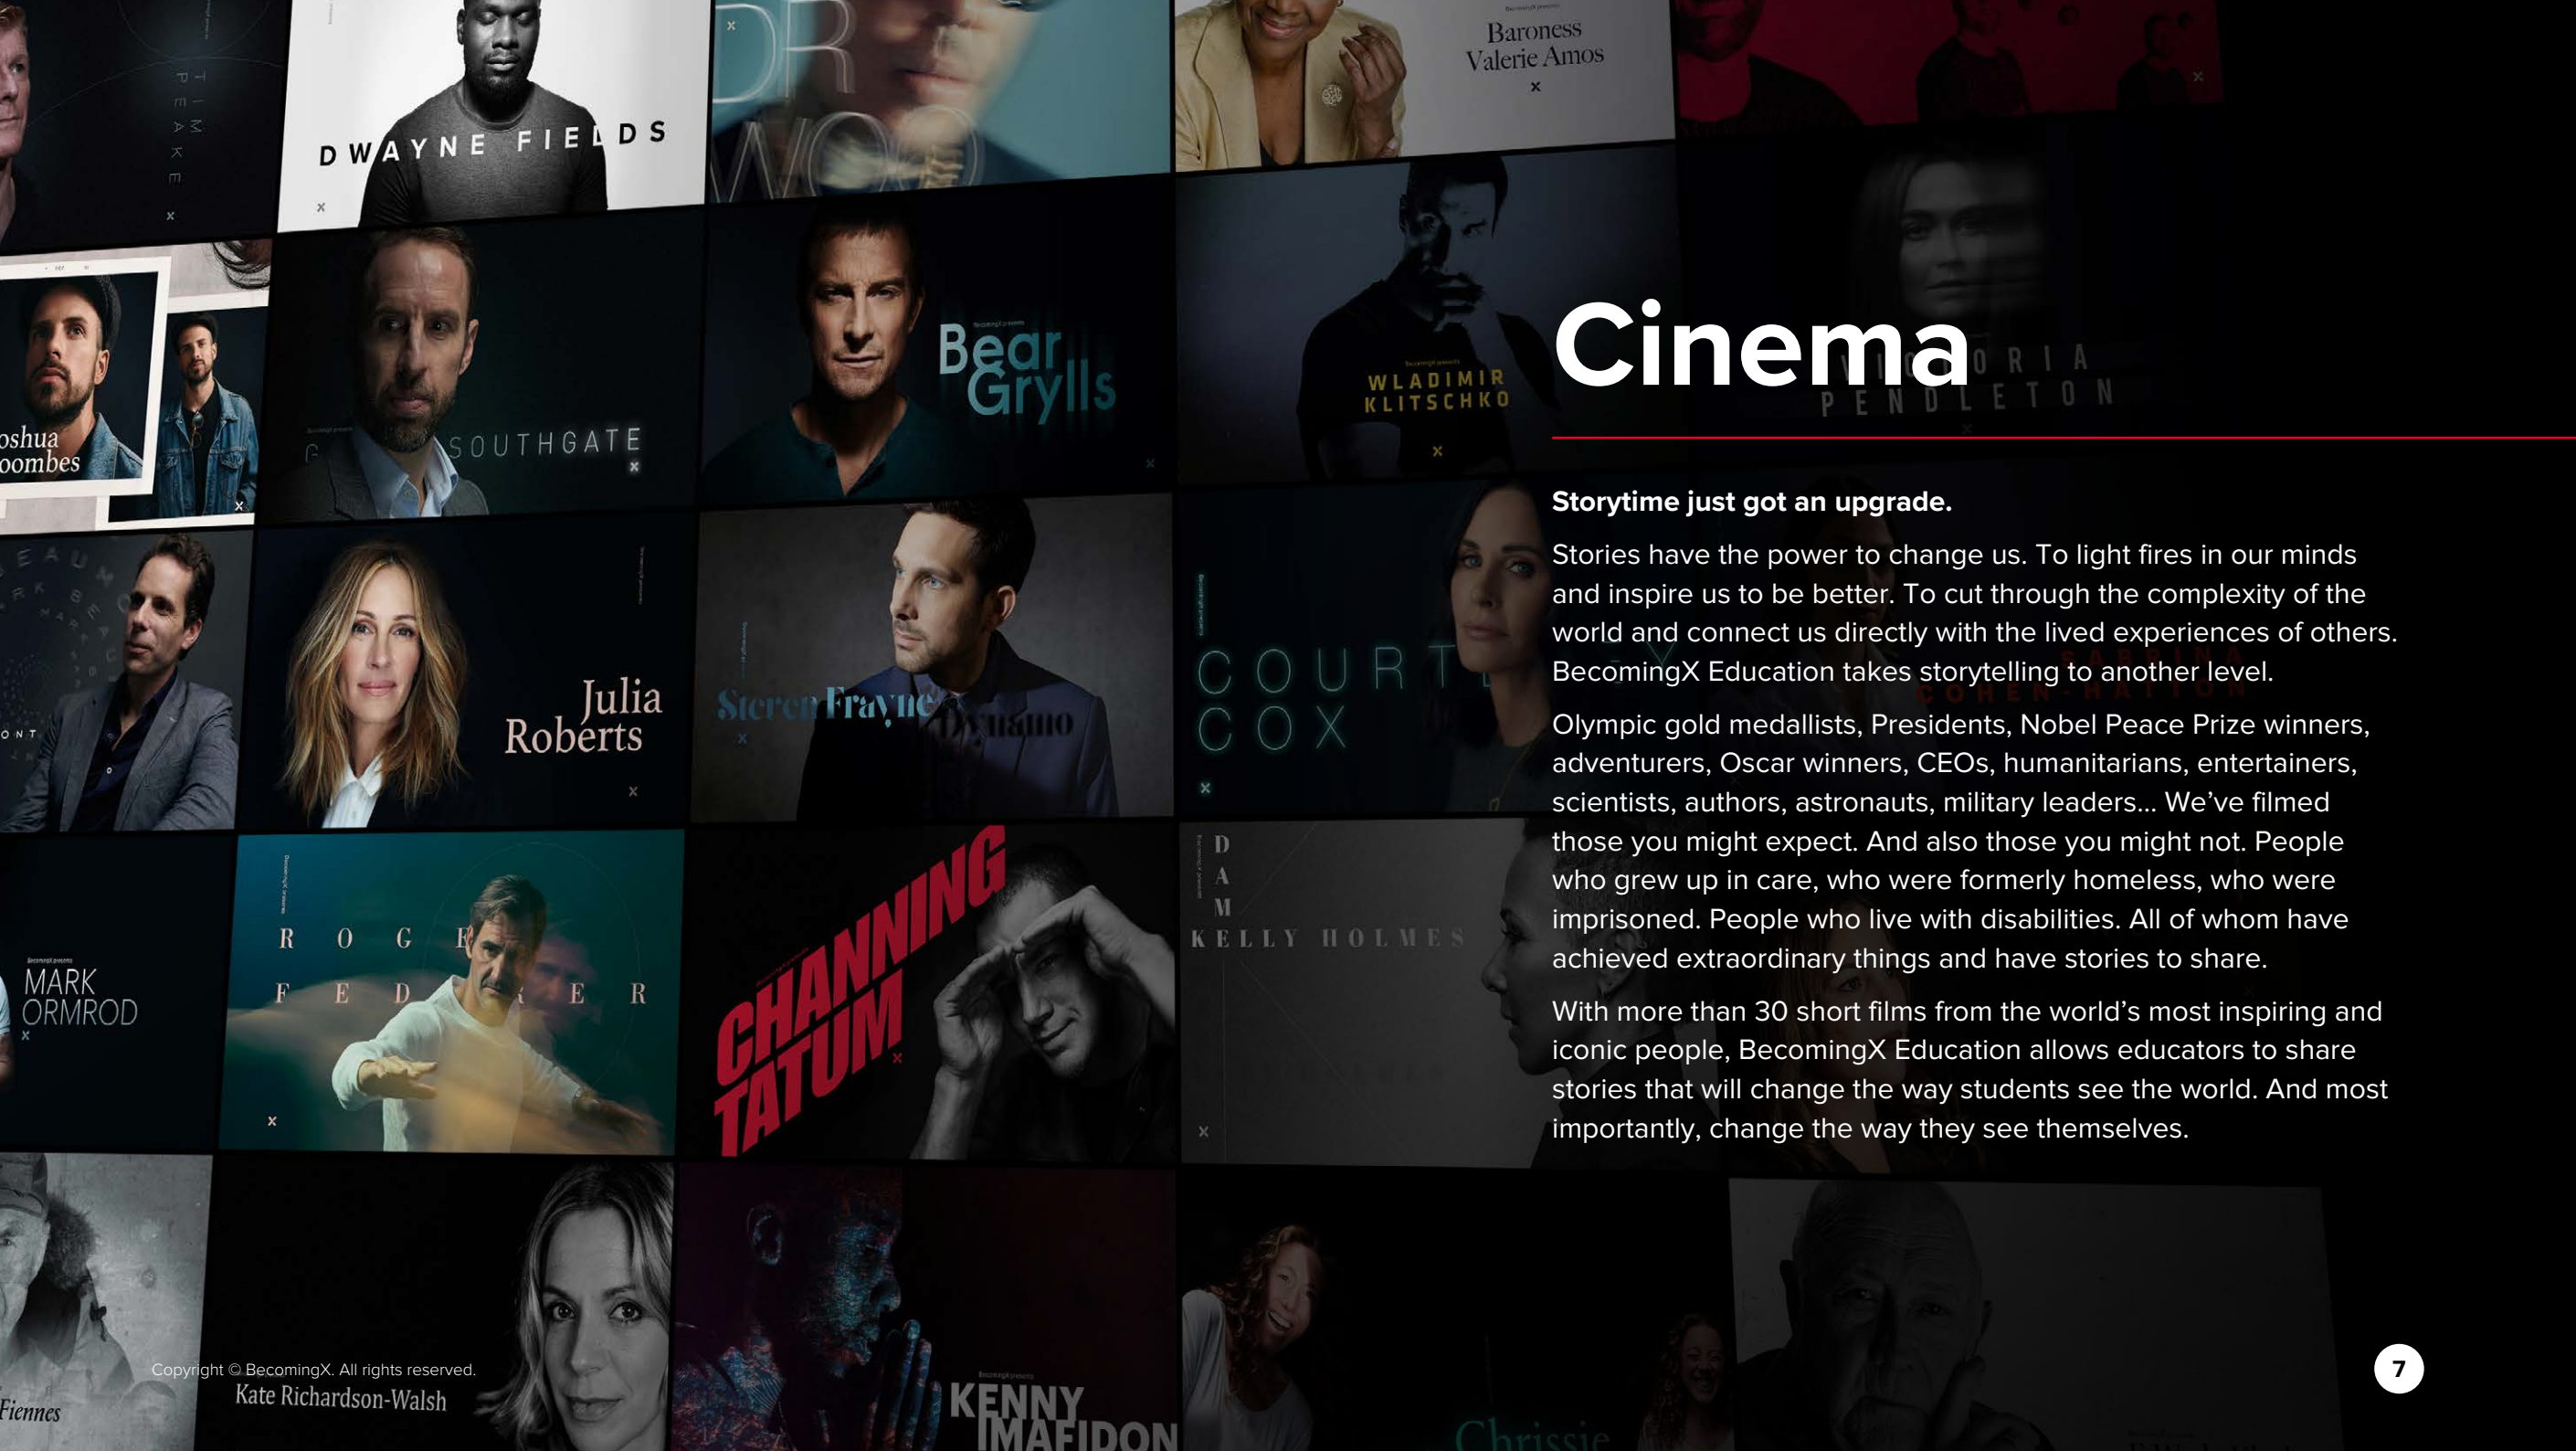

Library

Maximum impact. Minimum fuss.

BecomingX Education provides a library of world-class content focused on the skills, knowledge, attitudes and relationships that we know students need to succeed. With over 200 evidence-informed lessons, assemblies, discussions, activities and film clips available, teachers have access to age-specific content at the touch of a button. Fully flexible, content can fit into existing schemes, or be used as a complete programme. No resources require prerequisites.

Presented by Bear Grylls and featuring insights from some of the world's highest performers, our content takes classroom delivery to the next level. Add to that, activities created with leading companies and NGOs help students learn in practice and see real-world applications. With slides, lesson plans and resources ready to go, you can focus on what really matters. Helping students become the best they can be.

Cinema

Storytime just got an upgrade.

Stories have the power to change us. To light fires in our minds and inspire us to be better. To cut through the complexity of the world and connect us directly with the lived experiences of others. BecomingX Education takes storytelling to another level.

Olympic gold medallists, Presidents, Nobel Peace Prize winners, adventurers, Oscar winners, CEOs, humanitarians, entertainers, scientists, authors, astronauts, military leaders... We've filmed those you might expect. And also those you might not. People who grew up in care, who were formerly homeless, who were imprisoned. People who live with disabilities. All of whom have achieved extraordinary things and have stories to share.

With more than 30 short films from the world's most inspiring and iconic people, BecomingX Education allows educators to share stories that will change the way students see the world. And most importantly, change the way they see themselves.

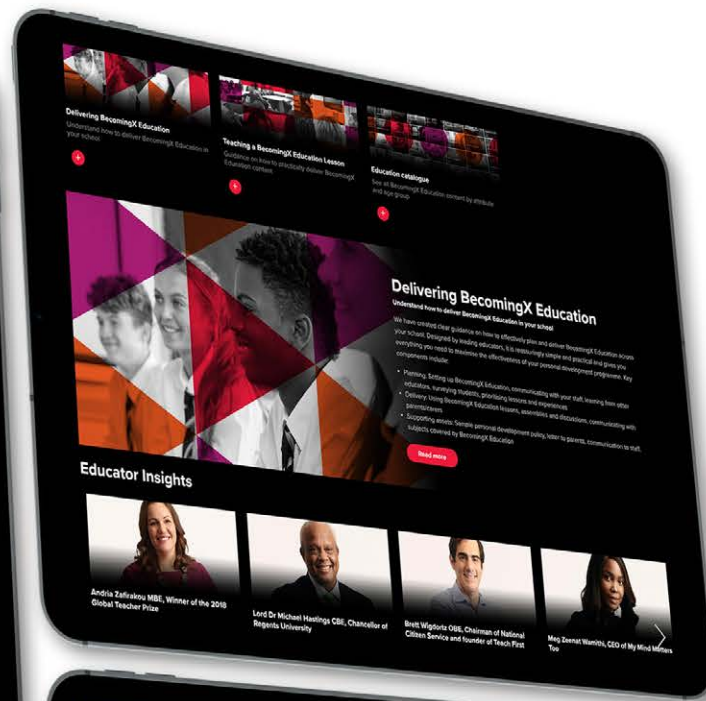

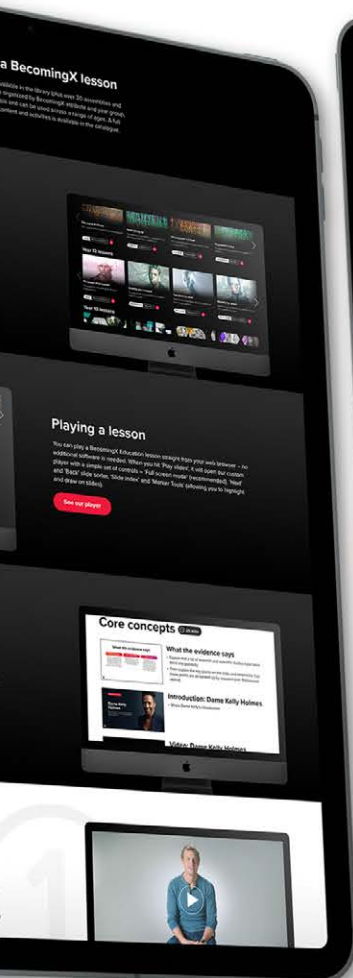

A young girl in a school uniform is smiling and writing on a whiteboard. She is holding a black marker in her right hand. The background is slightly blurred, showing a classroom setting with a computer monitor and other students.

“

BecomingX Education is the best platform that I've ever seen. We have used it across multiple subjects to equip the students with the skills and attitudes to succeed in life. It has made my classroom more exciting and inspiring forever!

Catherine Marron

St Ignatius Catholic School

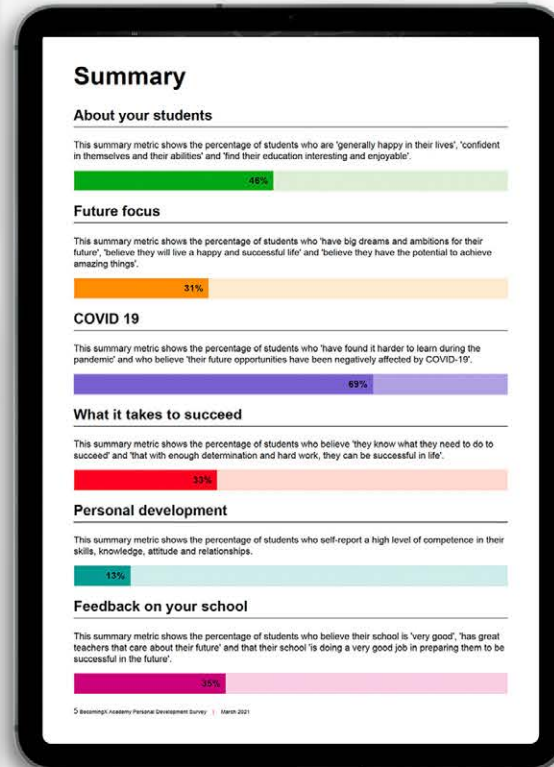

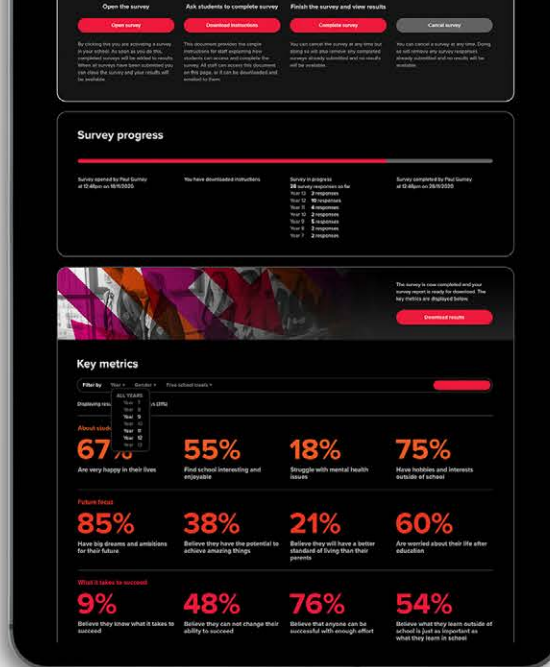

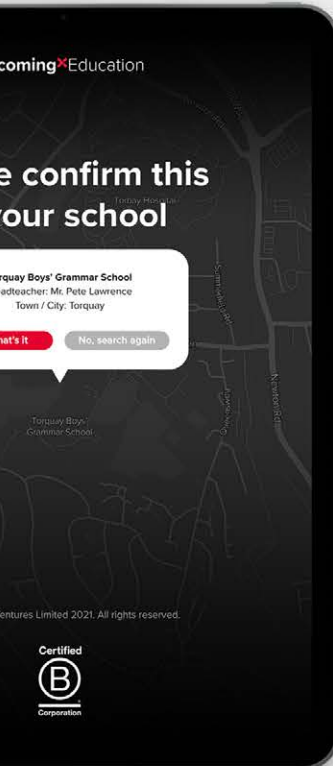

Tools

The guide to high performance.

BecomingX Education provides the practical guidance needed to help schools deliver a truly world-class personal development programme. The collective wisdom of leading educators, academics and practitioners is distilled into a series of short films, allowing staff to learn from those who have dedicated their lives to developing character and skills. Add to that our tools to help plan, measure and communicate, and a series of carefully curated links to external guidelines and research, BecomingX Education gives schools the information and resources they need to succeed.

Insights from some of the world's most inspiring and iconic people

Surveys

Welcome to knowing.

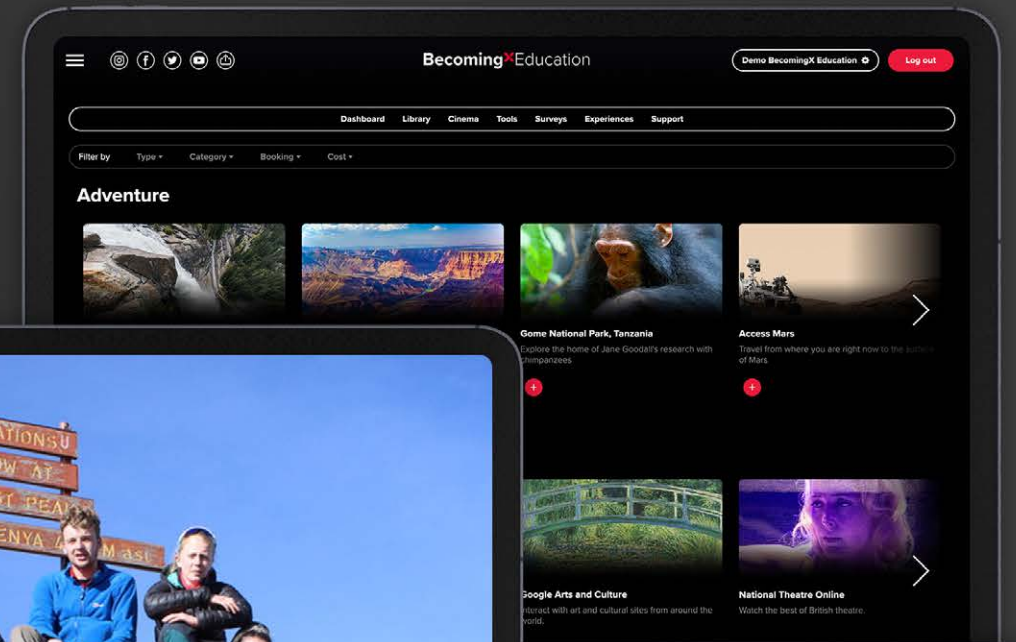

Our digital surveys allow schools to capture detailed insights from their students, to understand what they really think about their futures, their personal development progress and their education experience. With simple administration, real time progress tracking and secure access to results, we put schools in the driving seat. Detailed reports allow schools to design targeted strategies, measure and track the impact of their programmes over time and to benchmark their performance. Whilst schools may just want to monitor students' progress and sentiments for internal use, our personalised reports allow them to communicate the results with staff, students and stakeholders. Insightful. Actionable. Simple.

Experiences

Where memories are made.

Learning with BecomingX Education doesn't end in school. That's just where it starts. With a curated collection of virtual and international experiences, schools can deliver personal development programmes that fuel their curiosity and help students learn in practice. Travel the world from the comfort of your classroom... or for real.

Our international experiences are designed to help students build the personal attributes we know will help them succeed. Delivered by an award-winning adventure travel company, the trips provide transformative experiences for young people; building skills, changing attitudes and creating memories that last a lifetime.

Mount Kenya

Now available for booking!

A 15-day expedition focusing on teamwork, leadership, self-confidence and resilience. The expedition includes traversing Mount Kenya (4,985m), lake and land based safaris with exceptional wildlife viewing and staying with local Masai tribes. Uniquely, the trip also enables students to be joined by Kenyans of similar ages, who are beneficiaries of BecomingX Foundation funded projects. The Kenyan youths will be a key part of the team and provide students with a unique insight into life in Kenya, as well as the opportunity to visit their schools and houses.

Prices from £1925 per student (excluding flights)

A photograph of two students in school uniforms. A female student in the foreground is wearing glasses and a blue blazer, leaning over a desk and smiling. A male student in the background is also in a blue blazer and tie, looking down at a document on the desk. The background is slightly blurred, showing a classroom or study area.

“

Harton Academy has used BecomingX as the backbone of our personal development programmes, including an expedition to Kenya - students and staff have been truly inspired. We're now proudly 'Outstanding' for personal development.

Richard Burroughs
Harton Academy

Science of success

We know what it takes to succeed. And we don't say that lightly. It's taken years of research. Alongside our in-depth interviews with the world's highest performers, we constantly review the latest research on human performance. BecomingX Education is underpinned by a wealth of academic research covering topics such as social and cognitive psychology, neuroscience, management studies, team dynamics, experimental and behavioural economics, judgement and decision-making, health and biology, philosophy, and wellbeing research.

BecomingX Education uses our 'X-model' of high performance to structure all of our content. It's clear, concise and memorable. We have the evidence and stories to back up every element, helping students to learn what it really takes to succeed.

Impact

We've set out to create a world where everyone can realise their potential. To achieve this, we are different by design and are proud to be recognised as a B Corporation – certified to meet the highest standards of social and environmental performance.

We release all of our films for free. We have set up a charity, BecomingX Foundation, to deliver our mission in lower income countries and underserved communities. We share all of our education content with them and donate 10% of our education revenues to help fund their operations. We provide resources and expertise. What's more, we are 100% carbon positive and remove double the amount of carbon we ourselves emit.

So when people work with BecomingX, they aren't just helping schools and students. They are helping to create a world where everyone can realise their potential, no matter what their starting point in life is.

The team behind BecomingX

Founders

Paul Gurney

CEO and co-founder

Paul Gurney is a former senior Director at Accenture Strategy. Starting his career in education, he has significant experience in creating learning and development content for schools and corporates. He has also completed two of the ‘toughest races on earth’ and has helped raise \$5m for charities focused on helping people realise their potential.

Bear Grylls
